# ALUMNI SPEAKS

I graduated from Guru Nanak Dev University, RC in 2021 which has helped me to begin a successful career. With the help of dedicated professors and seniors, I was able to land a job at Capgemini, a brand that does not require any introduction to anyone.

The curriculum of GNDU is highly relevant to industry requirements and puts focus on the fundamental development and concept usage. The institute made me ready to go out and grow and furthermore provided me with an edge to compete at the national level.

**SahejmeetKaur**

My education from Guru Nanak Dev University has allowed me to begin a successful and fulfilling career. I was able to acquire a position of Design Engineer at the Defence Simulator Division. I was able to build a strong foundational understanding of engineering concepts that I was able to use in all the interviews and utilize in the work environment today. Also, all the instructors, and the huge network of alumni were very helpful when we applied for internships and jobs.

**Navdeep Singh**

Canada

I graduated from GNDU, RC in Electronics and Communication Engineering in 2010. I got placed and went to work for Tata Consultancy Services in Mumbai in the same year. I was involved in Software Quality Assurance of Pfizer and Bank of America applications, collaborating with teams based in New Jersey most of the time. In 2013, I left to do my Masters at Georgia Institute of Technology in USA, concentrating on Computer Systems and Software. After finishing my post-graduation, I joined IBM in early 2015 as software engineer and have been with the company since then.

**RamneekHora**

IBM

GNDU gave me ample amount of exposure when it comes to seeking opportunities in academia and in professional world as well. Diverse courses, dynamic sports, cultural activities, technological advancement, promising research opportunities, positive leadership, assured placement assistance and being industry ready is what our highly learned faculty made sure we evolve with whilst we studied. In fact, GNDU catapulted my career prospects by landing me with not one but two job offers before I graduated and that imbibed so much confidence in me.

Even after you graduate, your alma mater backs you with a strong alumni network so that you can connect with the latter batches for professional guidance and ignite the same zeal amongst your junior peers as well. In fact, since it's always about learning, education doesn't have to be all about return of investments, but even it is, mine was worthwhile.

**AmanChouhan**

Guru Nanak Dev University is much beyond just an "Institution" , It actually denotes a "Culture"...Culture of excellence, empowerment, and enrichment. The teachers and staff were highly supportive of my calibre and capabilities.

I learned to work on different industry-relevant technologies and done projects using these technologies that have helped me grow extensively. I am very grateful to the University for providing guidelines and motivation to inspire me to achieve my goals.

Thank you for everything. I will cherish these years throughout my life

**Rhythm Sharma**

Capgemini

GNDU gave me a platform to push myself and understand the potentials hidden inside me. These past four years not only helped me broaden my knowledge in Computer Sciences but also gave me alot of memories and whole lot of friends.I would heartily thank GNDU for everything!

**Er. Divansh Gandhi**

TCS NINJA

It has been a great opportunity to have pursued my Bachelors from GNDU, a prestigious University. I would like to thank GNDU for all the support and motivation to face any obstacle in life with a positive attitude. My journey throughout has been an immense learning leading to significant growth in my personnel and professional skills. I thank the learned faculty, who have cultivated good morals/values and treated me as a close-knit family member.

**Suman Soni**  
FNZ, Ireland

Guru Nanak Dev University, Regional Campus makes my dreams come true. The teachers were supportive; they helped me to enhance my skill and boost my confidence. Under their valuable guidance, I was selected in three companies. I am indebted to them.

**HarshitAngrish**  
Infosys

The curriculum is very relevant to the field of study, and all the latest technology-based subjects are taught. Teachers are very knowledgeable and polite. They always help students with solving their problems. They also help you in your research work and getting proper practical knowledge.

**Hemant**  
Bank of Baroda

When I reflect on my six years (B. Tech and M. Tech) in the GNDU RC, I conclude that the experience not only made me a better human, but also prepared me in unpredictable ways for my career. Through workshops with incredibly supportive classmates, and professors who were nothing short of champions, I was challenged to discover a innovative engineer I didn't know I had. That learning and practice has played a central role in my work, as engineering is vital to technology, to planning, to imagination, to innovation, and to engagement.

Having been shaped in part by the collegial and creative, yet rigorous, environment at University campus, I found myself able to think, innovate, and collaborate in ways that enabled me to build a successful Embedded engineer, and eventually to find a rewarding career. In my current role as Production and Automation Technician at Campari Group Pvt Ltd Australia, I work with the maintenance, with the managers, and with the broader technologies, and I draw every day on the dispositions I developed during my time at GNDU University. It was a wonderful golden time in my life, and the best educational experience I've had.
